

In a very short time you will be making a decision if LPFM stations will take priority over FM translator service. I strongly feel that family stations like K-LOVE that broadcast on FM translators and provide positive-encouraging family broadcasting to hundreds of thousands of people in the United States are too valuable to lose. This station provides a much needed service to thousands of people. To lose any K-LOVE station would be a devastating blow to thousands of people who depend on this station to provide them with an emotional release and spiritual uplifting that this Christian station can provide. Too many good things go away in this country because no one either stands up for them or they are swayed by what may be the popular idea of the moment. My family and thousands of other families that tune into K-LOVE to provide Christian family broadcasting would be devastated that our government took K-LOVE off the air. PLEASE RETHINK YOUR PLANS. Possible solution: Give K-LOVE grandfather rights to stations that are already on the air. This is a station I can let my kids listen to without fear of the content in the music or the d-jay comments. It provides a refuge for overseas soldiers through [www.KLOVE.com](http://www.KLOVE.com). Numerous soldiers have written in to express gratitude for the service K-Love is doing overseas and in the UNITED STATES. Don't let one of America's treasures be tossed away. Please listen today and decide for yourself. Thank you for your time.
